

Reading Transport Interchange

Project Name:
Reading Transport Interchange

Product:
Paragon Walkway

Client(s):
Reading Borough Council

Scope of Project:
The design, manufacture and installation of a bespoke Paragon glazed walkway. Macemain were appointed as Main Contractor for the project.

Outline Specification:
Macemain + Amstad were the main contractor and project manager for this project on behalf of Reading Borough Council. Through various meetings with the Transportation department of Reading Borough Council we were able to incorporate all their ideas into a glazed walkway. We also had to take into account the gradient of the area.

We undertook the design, manufacture and installation of a stainless steel glazed walkway, timetable cases and benches. We were required to dismantle and remove all existing infrastructure. We undertook all ground works and incoming electrical works.
