

South West Trains – Ash Vale Canopy

Project Name:

South West Trains, Ash Vale Canopy

Product:

Ash Vale Canopy

Client(s):

South West Trains

Scope of Project:

The design, manufacture and installation of a new platform canopy at Ash Vale Station. Macemain + Amstad worked with South West Trains and their consultants to provide a valued engineered platform canopy for South West Trains. The canopy at Ash Vale Station included a central back panel that incorporated a number of design features from the Paragon AV Shelter range, providing strong design continuity with existing platform infrastructure.

Project Description:

The Ash Vale Canopy was designed from a modular footprint, using standard components and sections that enabled costs to be kept to a minimum. The Ash Vale Canopy is a flexible system available in different finishes with the option of different bay widths and heights and interchangeable roof materials.
